## 1. INTRODUCTION

This project consists of performing studies of Tish Tang Road (7N400) in support of future funding for pedestrian facilities. Tish Tang Road has many important community services, including a small regional airfield and hospital.

## 2. BACKGROUND/REQUEST

The County of Humboldt is requesting **\$25,000** to perform a road & pedestrian safety audit to help us develop a future PSR. Attached is a table of collision data from 2000 to 2023. In addition to this there has been an uptick in community reported incidents and interest in pedestrian & safety improvements.
