### I. BACKGROUND

The *Humboldt County Zero Emission Fleets Project* is funded by the Infrastructure Investments and Jobs Act (IIJA) Carbon Reduction Program (CRP). Caltrans developed a Carbon Reduction Strategy (October 2023) to outline how California will spend its CRP dollars on reducing transportation carbon emissions. California's Carbon Reduction Strategy focuses on "Three Pillars": zero-emission vehicles (ZEV) and infrastructure, active transportation and micromobility, and rail and transit. Sixty-five percent of the funds the state received have been allocated to the Local Carbon Reduction Program, to be administered by Regional Transportation Agencies and Metropolitan Planning Organizations. The Humboldt County Association of Governments (HCAOG) Board recommended using a portion of their local funds to support member agencies in identifying infrastructure and capital needs to transition fleets to zero emission vehicles in compliance with California Air Resources Board (CARB) Advanced Clean Fleets regulations.

#### **Humboldt County Association of Governments**

HCAOG conducts work for the benefit of the entire Humboldt County region. The region now known as Humboldt County includes the unceded traditional territories and current homelands of several indigenous nations including the Karuk, Hupa, Wiyot, Yurok, Tsnugwe, Chilula, Chimariko, Lassik, Mattole, Nongatl, Sinkyone, Wailaki, and Whilkut people.

HCAOG is the designated Regional Transportation Planning Agency (RTPA), which has transportation planning responsibilities under federal and state law. As the RTPA, HCAOG is responsible for developing regional transportation plans and programs in a cooperative, continuous, and comprehensive planning process. This process is carried out with federal, state, regional, local, and tribal agencies, and the public. The HCAOG Board of Directors is comprised of eight members: the Chairman of the Board of Supervisors, and the Mayors of Humboldt's seven cities (Arcata, Blue Lake, Eureka, Ferndale, Fortuna, Rio Dell, and Trinidad), or an alternate designate from that governing body. HCAOG has three standing advisory committees: the Policy Advisory Committee, Social Service Transportation Advisory Council, and Technical Advisory Committee (TAC).

## **II. PROJECT SUMMARY**

The Humboldt County Regional Zero Emission Fleet Transition and Infrastructure Plan (Plan) will chart a course to transition local government fleets to zero or near-zero emission vehicles. The plan will provide recommendations for the County of Humboldt, seven incorporated Cities, and participating Tribal Governments based on a review of fleet duty cycles and master vehicle inventory replacement schedules. The Consultant will provide technical feasibility analysis and planning level cost estimates for alternative fueling station siting and installation including 10% design site plans for priority sites (minimum 8 sites). The Plan will clearly define implementation steps for local agencies to acquire capital funding, obtain necessary approvals and permits, and install fueling equipment.

Due to long travel distances and hilly terrain, the County anticipates needing a fleet with a mix of battery electric and hydrogen fuel-cell vehicles. The Plan will provide an integrated analysis of optimal hydrogen fueling needs for the region and take into consideration existing plans for an over-the-fence hydrogen station at the Humboldt Transit Authority yard as well as results from a separate planning study that analyzed micro-siting for hydrogen fueling sites in Humboldt County.

The planning effort would integrate and build on prior research and planning efforts already completed for the region by the Schatz Energy Research Center and Redwood Coast Energy Authority (RCEA) including: North Coast Plug-in Electric Vehicle Readiness and Implementation Plans (2014-2019), Hydrogen Infrastructure Plan Regional (2017), Climate Resilient Battery Electric Fleet Feasibility Assessment for Humboldt County Public Transit (2020), Total Cost of Ownership Comparison between Fuel Cell and Battery Electric Transit Fleets for Humboldt County (2021), Humboldt Transit Authority Zero Emission Bus Rollout Plan (2023), and the Medium and Heavy Duty Vehicle Study (2024). Additionally, recent work completed towards a Humboldt Bay area hydrogen fueling micro-siting analysis will be provided to the consultant.

Under separate contract, a North State Hydrogen Fuel Cell Siting Analysis is anticipated to begin in September 2024. Although the analysis will mostly focus on transit and freight, some level of coordination between these two planning efforts, which will be occurring simultaneously, is anticipated.

RCEA and Caltrans District 1 will participate in the planning study as key stakeholders. The project does not include an analysis of the Caltrans fleet, however Caltrans District 1 is particularly interested in identifying potential shared alternative fueling facilities for their fleet. To the extent possible, federal land management agencies such as the US Forest Service and CALFIRE should be included in discussions of shared fueling facilities.

## **III. SCOPE OF WORK**

This RFP contains four major tasks. HCAOG considers the activities listed in the Scope of Work, attached as Attachment B, to be the minimum requirements expected for conducting the Humboldt County Humboldt County Regional Zero Emission Fleet Transition and Infrastructure Plan. Proposals should describe tasks, time frames, staffing, and approaches to project management and communicating with project stakeholders.

A final scope of work and schedule will be developed by HCAOG and the Successful Proposer. All proposers will be held to the applicable requirements, standards and protocols set forth in this RFP, and the sample Consultant Services Agreement (Attachment A). If subconsultants are proposed, the Subconsultant List form (Attachment D) must be included with the proposal. Such requirements and standards will be incorporated into the final Consultant Services Agreement subject to negotiation between HCAOG and the Successful Proposer.

Regular progress reports will be required as deliverables for this project. Proposals should detail any assistance the respondent will require from HCAOG staff and/or committee members.
