**AGENDA ITEM 7a**  
TAC Meeting  
August 1, 2024

---

DATE: July 25, 2024  
TO: Technical Advisory Committee (TAC)  
FROM: Stephen Luther, Associate Planner  
SUBJECT: **Traffic Safety Camera Options for Safe Streets and Roads for All Project**

### **DISCUSSION**

The Safe Streets and Roads for All project includes a \$30,000 budget to purchase traffic safety camera/sensor equipment to complete traffic safety monitoring at high-injury intersections. The resulting data will be analyzed to inform the regional Vision Zero Action Plan. The equipment will then remain with HCAOG and be available for use by jurisdictions to check out and use on a rotating basis. There are several products on the market with various capabilities and cost structures. We are seeking direction from the TAC on the outcomes they would like to see from this equipment as well as the process to employ in selecting a vendor. Options include inviting company representatives to present at TAC meetings, HCAOG staff presenting a summary comparing products, or TAC members providing a list of desired outcomes and entrusting HCAOG staff to research and choose the product with the best fit.
